Claude Skills

Built for Claude Code

pharmagrowth.co/shop

Welcome to the Claude AI Skills Pack

This pack gives you 11 ready-to-install AI skills built specifically for pharmaceutical and consumer healthcare marketing. Each skill is a structured AI agent that runs inside **Claude Code** — transforming a single command into a complete, professional-grade deliverable.

What You Can Do With This Pack

- Build an annual brand marketing plan in one session
- Plan and brief a full campaign in under 30 minutes
- Launch a product with a complete cross-functional playbook
- Review promotional copy for regulatory risk before MLR submission
- Map and activate KOLs with a compliance-aware engagement calendar
- Model pricing, margins, and P&L; scenarios for any brand decision
- Analyze portfolio performance and build data-driven narratives

How to Install the Skills

1. Copy each SKILL.md file into your Claude Code skills directory:
`~/ .claude/skills/[skill-name]/SKILL.md`
2. Restart Claude Code (or open a new session).
3. Type the skill command (e.g., `/marketing-plan`) and Claude will activate it automatically.

Requires Claude Code (claude.ai/code). Skills are compatible with Claude Sonnet and Claude Opus.

What's in This Pack

#	Skill Name	Command	Primary Use Case
1	Annual Marketing Plan Builder	/marketing-plan	Annual planning cycle
2	Campaign Planner	/campaign-planner	Planning a product launch campaign
3	Brand Launch Playbook	/brand-launch-playbook	New product launch

9	P&L & Contribution Margin Analyzer	/pnl-analysis	Annual budget review
10	Brand Portfolio Analytics	/portfolio-analytics	Monthly commercial review
11	CHC Training Manual Builder	/chc-training-manual	New hire onboarding

Skill 01

Annual Marketing Plan Builder

/marketing-plan

Build a complete annual brand plan — from situation analysis to budget to KPI dashboard.

When to use Annual planning cycle, brand strategy review, new market entry, quarterly realignment.

What it produces

Situation analysis + SWOT Brand objectives (SMART) Strategic pillars & tactics 12-month marketing calendar Budget allocation KPI dashboard

How to trigger it

/marketing-plan – "Build a 2025 marketing plan for my OTC pain relief brand in Egypt"

Pro tip

Provide your previous year's sales data and any market research you have. The more context, the sharper the plan.

Skill 02

Campaign Planner

/campaign-planner

Translate brand strategy into an executable campaign — audience, messaging, channels, KPIs.

When to use Planning a product launch campaign, seasonal activation, awareness drive, HCP detailing campaign.

What it produces

Campaign brief (1-page) Audience profiles Message architecture Channel mix with budget % Campaign calendar KPI tracking template

How to trigger it

/campaign-planner – "Plan a Q3 awareness campaign for a new antifungal cream targeting women 25-45"

Pro tip

Specify whether your audience is consumer (DTC), HCP, or trade — the channel mix changes significantly.

Skill 03

Brand Launch Playbook

/brand-launch-playbook

6-month backward launch timeline with cross-functional RACI and go/no-go checklist.

When to use New product launch, line extension, market entry, OTC switch, generic launch.

What it produces

Launch strategy + positioning 6-month timeline with milestones Cross-functional RACI Launch budget model KPI dashboard Risk register Launch readiness checklist

How to trigger it

/brand-launch-playbook – "We are launching a new probiotic supplement in Saudi Arabia in Q2"

Pro tip

Confirm regulatory registration status upfront. The skill flags distribution readiness as a hard dependency before consumer advertising.

Skill 04

Trade Marketing Planner

/trade-marketing-planner

Pharmacy channel strategy — shelf, promotions, trade spend ROI, joint business plans.

When to use Pharmacy chain activation, new listing drive, promotional calendar planning, trade spend review.

What it produces

Account prioritization matrix Shelf + secondary placement strategy Promotion mechanics menu Trade budget allocation ROI model per promo JBP template Field execution checklist

How to trigger it

/trade-marketing-planner – "Plan Q4 trade activation for Nahdi and Al-Dawaa for our vitamin C range"

Pro tip

Always include your trade budget envelope. Without it, the skill cannot model ROI or rank promotion mechanics by efficiency.

Skill 05

KOL Engagement Planner

/kol-engagement-planner

Map, tier, and activate key opinion leaders and HCPs with a compliance-aware engagement calendar.

When to use

Medical affairs planning, speaker bureau setup, advisory board, pharmacist engagement program.

What it produces

KOL scoring + tier classification Priority KOL short list Engagement activity map 12-month calendar Budget breakdown Compliance checklist Success metrics

How to trigger it

/kol-engagement-planner – "Build a KOL engagement plan for dermatologists for our dermo brand launch"

Pro tip

The skill separates medical affairs activities (education) from commercial activities (promotion). Be clear which you are planning to get the right output.

Skill 06

Regulatory Copy Checker

/regulatory-copy-checker

Pre-MLR compliance review — flag risky claims, suggest fixes, score copy before submission.

When to use Before submitting ads, social posts, brochures, or sales aids for MLR/regulatory review.

What it produces

Risk flagged copy (line by line) Issue table: location, risk level, description Compliant alternative copy Overall compliance score (Green/Amber/Red) Missing mandatory elements checklist

How to trigger it

`/regulatory-copy-checker` – then paste your ad copy or promotional text

Pro tip Specify product type (Rx/OTC/supplement) and target geography. Rules differ significantly — a claim legal in one market may be prohibited in another.

Skill 07

Competitive Intelligence Analyzer*/competitor-analyzer**Map the competitive landscape, build battle cards, and design strategic responses.*

When to use Competitive landscape review, new competitor enters market, brand positioning review, sales team briefing.

What it produces

Competitive landscape map Brand-by-brand comparison table Battle card (one-page sales tool) Threat assessment Strategic response recommendations

How to trigger it

`/competitor-analyzer – "Map all competitors in the OTC oral care category and identify threats to my brand"`

Pro tip

Share any competitor price lists, shelf photos, or audit data you have. The richer the input, the sharper the analysis.

Skill 08

Pricing Strategist

/pricing-strategist

Build pricing architectures, model margin waterfalls, and design trade terms.

When to use New product pricing, price increase decision, competitor price response, margin review, tender pricing.

What it produces

Price waterfall (transfer price to consumer) Channel margin architecture Competitor price benchmarking Promotional pricing scenarios Gross-to-net model

How to trigger it

```
/pricing-strategist – "Set the launch price for a new mouthwash. FOB cost is $1.20/unit. Competitor retails at SAR 32."
```

Pro tip

Provide your cost inputs (FOB/landed cost) and minimum acceptable margin. Without these, the skill cannot build a valid price waterfall.

Skill 09

P&L; & Contribution Margin Analyzer

/pnl-analysis

Model brand P&L;, contribution margins, and profitability scenarios.

When to use Annual budget review, new launch feasibility, discount impact assessment, SKU rationalization.

What it produces

Brand P&L; model Contribution margin by SKU Scenario modeling (base/upside/downside) Break-even analysis Profitability improvement recommendations

How to trigger it

/pnl-analysis – then upload or paste your cost and revenue data

Pro tip

The more granular your cost data (COGS breakdown, A&P; spend by line), the more actionable the output. Accepts Excel or pasted tables.

Skill 10

Brand Portfolio Analytics

/portfolio-analytics

Analyze portfolio performance — sell-in vs sell-out, brand contribution, growth drivers.

When to use Monthly commercial review, quarterly business review (QBR), portfolio strategy meetings.

What it produces

Portfolio performance dashboard
Brand ranking by value and volume
Sell-in vs sell-out gap analysis
Growth driver decomposition
Portfolio health scorecard

How to trigger it

/portfolio-analytics – then share your sales data (monthly actuals by brand/SKU)

Pro tip Works best with at least 3 months of actual sales data. Accepts Excel, CSV, or pasted tables.

Skill 11

CHC Training Manual Builder

/chc-training-manual

Build internal training manuals for consumer healthcare and dermo-cosmetics brand teams.

When to use

New hire onboarding, brand training, pharmacy staff education, product knowledge update.

What it produces

Brand background + market context Product knowledge module Target audience profiles Key messages + objection handling
Competitor comparison Assessment questions

How to trigger it

/chc-training-manual – "Build a training manual for our field team on the BlanX teeth whitening range"

Pro tip

Provide brand positioning, product claims, and any existing materials. The skill structures them into a learning-ready format.

Quick Reference — All 11 Skills

Command	Skill Name	One-Line Purpose
/marketing-plan	Marketing Plan Builder	Full annual brand plan — SWOT to KPI dashboard
/campaign-planner	Campaign Planner	Campaign brief, channels, budget, and KPIs
